How has Craftsman's EBITDA margin trended FY22 to FY25

Summary

Craftsman's EBITDA margin decreased from 22.68% in FY22 to 11.22% in FY25, indicating a significant decline in profitability relative to sales over this period.

Details

- FY22 EBITDA margin: 22.68% (EBITDA of 502.72 / Sales of 2217.02)
- FY25 EBITDA margin: 11.22% (EBITDA of 638.35 / Sales of 5690.48)

Calculation

EBITDA margin formula: (EBITDA / Sales) * 100

- FY22: (502.72 / 2217.02) * 100 = 22.68%
- FY25: (638.35 / 5690.48) * 100 = 11.22%

The margin nearly halved from FY22 to FY25 despite an increase in absolute EBITDA, due to a proportionally larger increase in sales.

How has Craftsman's EBITDA margin trended FY22 to FY25

Summary

Craftsman Automation Ltd's EBITDA margin has been on a clear declining trend from FY22 to FY25, with a significant drop in profitability margins over the period.

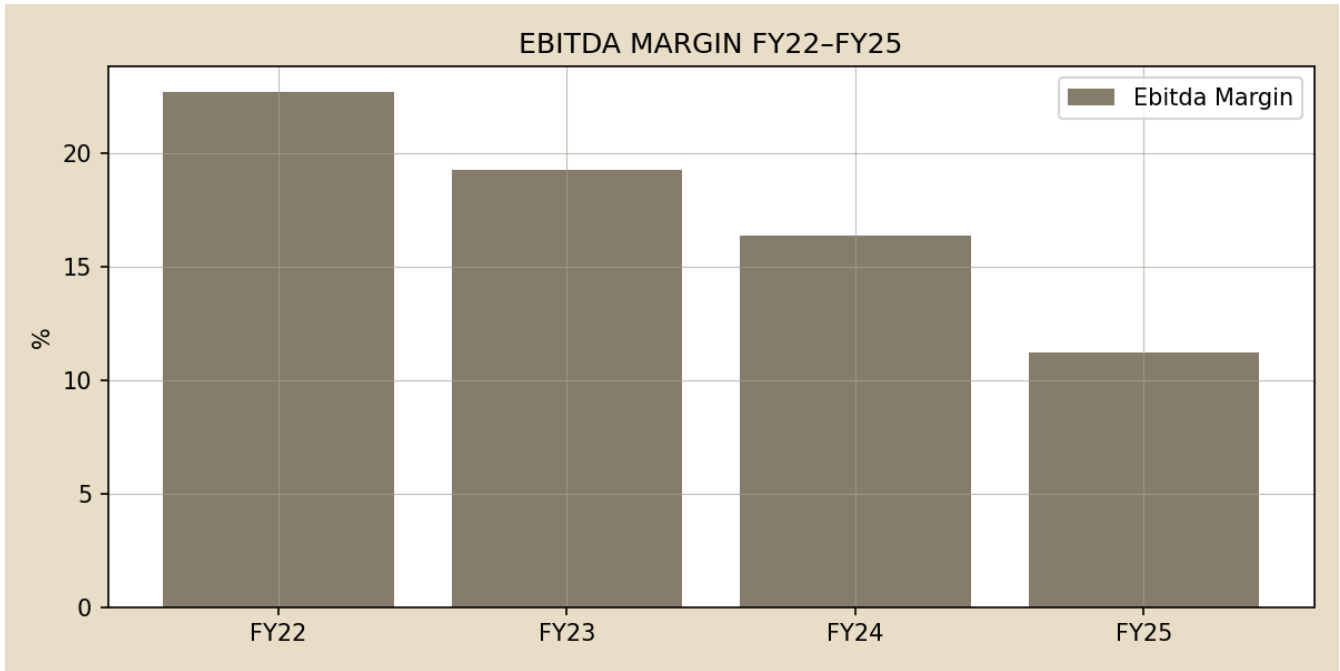

Details

- The EBITDA margin decreased from 22.68% in FY22 to 11.22% in FY25.
- Year-over-year growth rates show consistent declines: -15.04% from FY22 to FY23, -15.05% from FY23 to FY24, and a sharper decline of -31.46% from FY24 to FY25.
- The compound annual growth rate (CAGR) over the entire period is -20.91%, confirming the sustained downward trend.

- An outlier is identified between FY24 and FY25, where the YoY decline rate of -31.46% exceeds the threshold of 22.58% (1.5 times the median absolute YoY rate), indicating an unusually steep drop in EBITDA margin during this final year.

Compare revenue and net profit FY22 to FY25

Summary

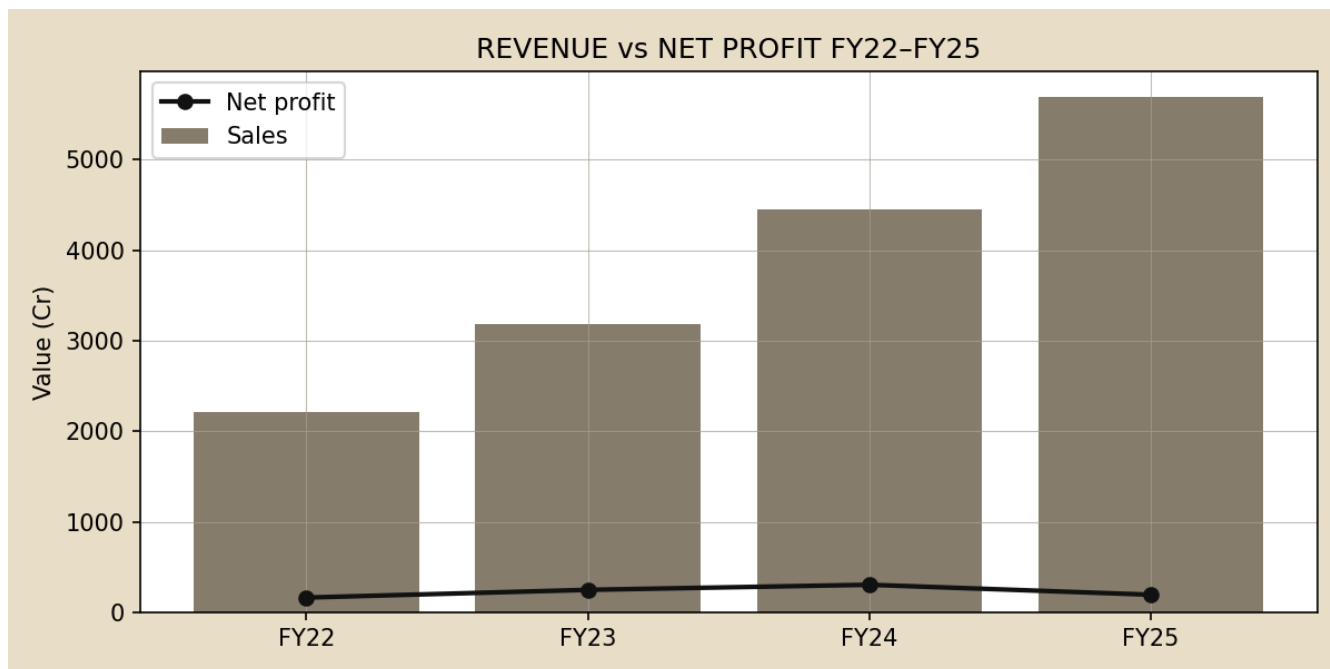

Craftsman Automation Ltd has demonstrated strong and improving sales growth over the four fiscal years, while net profit growth shows a more mixed pattern with a recent decline despite an overall improving trend.

Details

- Sales increased significantly each year with YoY growth rates of 43.55% (FY22–FY23), 39.88% (FY23–FY24), and 27.83% (FY24–FY25), reflecting robust expansion.
- The compound annual growth rate (CAGR) for sales over the period is 36.92%, confirming sustained strong growth.
- Net profit grew by 52.3% from FY22 to FY23 and by 22.58% from FY23 to FY24, indicating initial strong profitability improvements.
- However, net profit declined sharply by 36.1% in FY25, which interrupts the positive trend despite the overall CAGR of 6.06% across the four years.
- No outliers were identified in either sales or net profit, as all YoY changes fall within the expected range based on the 1.5x threshold rule.

what's the trajectory of Craftsman's operating profitability

Summary

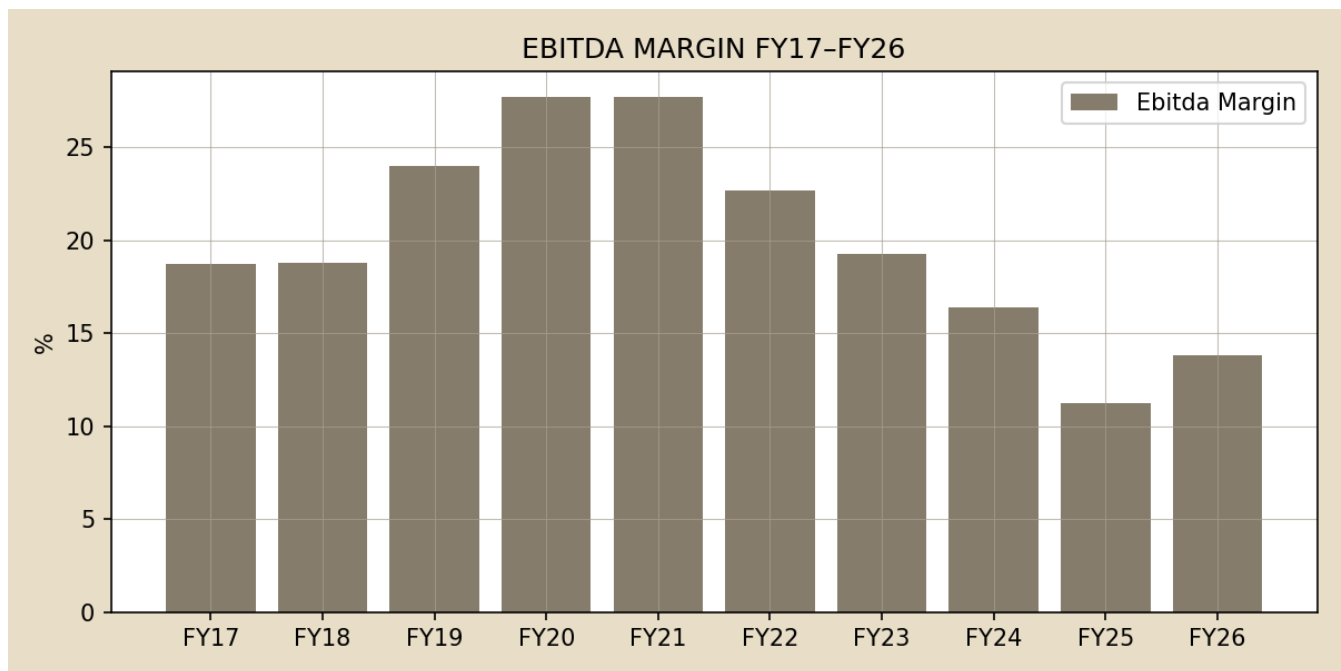

Craftsman Automation Ltd's EBITDA margin shows a generally declining trend over the FY17 to FY26 period, with a negative CAGR of -3.32%. Despite some intermittent increases, the margin has decreased notably in recent years.

Details

- The EBITDA margin started at 18.72% in FY17 and peaked at 27.69% in FY21 before declining sharply thereafter.
- Year-over-year growth rates reveal volatility, with a significant positive spike of 27.65% from FY18 to FY19, followed by smaller increases and then consistent declines.
- Notable declines include a -18.09% drop from FY21 to FY22 and consecutive decreases of around -15% in FY22 to FY23 and FY23 to FY24.
- The largest negative outlier is the -31.46% drop from FY24 to FY25, exceeding the 1.5x median absolute YoY rate threshold of 23.22%.
- The positive outlier is the 27.65% increase from FY18 to FY19, also surpassing the 23.22% threshold.
- These outliers indicate periods of unusually high volatility in EBITDA margin growth.
